(54) MULTI-CASTING RESTRICTED BY TIME FRAME FOR FUTURE DELIVERY MULTI-CASTING

(57)Abstract:

PROBLEM TO BE SOLVED: To transmit events in a specified time frame, as fairly as possible, to a variety of necessary number of clients.

SOLUTION: Before the release time of an event, the enciphered event is transmitted, and a key small in size and transmitted efficiently is distributed to decode the encipher of the event at the release time of the event or the other time so that clients can receive the event at a generally same time after the release time. Thus the event can be distributed to the clients with a variety of bandwidths.

## LEGAL STATUS

[Date of request for examination]

24.01.2006

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the  
examiner's decision of rejection or application  
converted registration]

**BEST AVAILABLE COPY**

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]

[Date of extinction of right]
